

SIMAI PRIZE FOR YOUNG RESEARCHERS IN INDUSTRIAL MATHEMATICS: EDITION 2022

The participation to the competition is reserved to SIMAI members born not earlier than the first of January 1987 and who are actively carrying out research in the field of Industrial Mathematics.

The prize will be assigned taking into account the scientific merits of the candidate.

The profile of the candidate should highlight the following characteristics:

-Autonomy in the scientific production as testified by publications in international recognized journals and conference proceedings

-Capability of developing lines of research of interest to applications of mathematics

-International recognition as testified by prizes, invited talks etc.

-Participation to projects relevant to Industrial Mathematics

CANDIDATES SHOULD SUBMIT THEIR CANDIDATURE BY THE 31TH OF MAY 2022.

Candidatures are submitted directly by the candidate.

They should indicate the date of birth and a web site containing their Curriculum Vitae.

They have also to send a one page cover letter describing their research activities and the relevance to respect the Industrial Mathematics.

Candidatures must be submitted by email to the President and the Secretary of SIMAI at the following addresses: presidente@simai.eu, segretario@simai.eu

Selection Procedure: the SIMAI Board will nominate a Committee which will prepare a short list of 5/10 candidates deemed eligible. The final selection will be made by an Independent Board.

The prize consists of a sum of 1000 Euros and a personal invitation to present the research work in one of the next meeting organized by SIMAI.
